**»Ultra Low Power«**

July 6, 2010  
Golden Tulip Inn München (Germany)

Company: Texas Instruments  
Internet: [www.ti.com](http://www.ti.com)

Brief description:

Texas Instruments helps customers solve problems and develop new electronics that make the world smarter, healthier, safer, greener and more fun. A global semiconductor company, TI innovates through design, sales and manufacturing operations in more than 30 countries. For more information, go to [www.ti.com](http://www.ti.com).

Products:

**MSP430™ MCUs** - Ultra-low power microcontroller solutions for low-power or no-power applications.

The MSP430 microprocessor platform of ultra-low power 16-bit RISC mixed-signal microcontrollers from TI provides the ultimate solution for a wide range of low power and portable applications.

**Low-Power RF & ZigBee® solutions**

TI offers cost effective low power RF solutions for the ISM band, ZigBee/RF4CE and a variety of short-range applications in the sub-1 and 2.4 GHz frequency bands. TI's product offering includes RF transceivers, RF transmitters, RF receivers, System-on-Chips, Front Ends and ZigBee Processors
